

## Important Notice

### Grounds and Clubhouse Security

The Club is upgrading the two external gates (Lennox Street and the bottom gate), and installing a new entry system at the main clubhouse door.

It is anticipated that these changes will both be implemented in the next few weeks. From that point onwards, each member will require a new security key for the gates and an entry token for the clubhouse.

The cost of these tokens will be borne *by the club* for all members whose subs are paid up as at Friday 29<sup>th</sup> April. In future the cost of the key and the token will be covered by a deposit from each member (and the cost of replacements will be charged to any member losing these, as is already the case with keys).

It will be necessary to distribute keys and tokens. This will primarily be done upstairs at the clubhouse on dates to be advised. It will be expensive to send out keys and tokens by post but it is recognised that in some cases this will be necessary.

In future, entry to the clubhouse will only be possible for those who have paid their subs.

Further details will be circulated by email and notices will be placed in the clubhouse. Please ensure that your contact details on the club membership database are up-to-date so that you receive this information in good time. (The subscription form asks for members to update their contact details, so most members will have already done this for 2011.)
